Press Release

HEAVY DUTY HOLLOW SHAFT ENCODER TAKES ON YOUR WORST ENVIRONMENT

FOR IMMEDIATE RELEASE

SANDPOINT, IDAHO, SEPTEMBER 28, 2001: Encoder Products Company (EPC) introduces the Model 702 Hollow Shaft Accu-Coder™. This hollow shaft version of EPC's popular industry standard size 20 encoder includes EPC's revolutionary anti-backlash flex mount for easy installation. Featuring double shielded ball bearings, a shock rating of 75 Gs for 11 milliseconds duration, and an optional IP64 seal, the Model 702 Hollow Shaft Accu-Coder™ is designed for harsh factory and plant floor environments. The Model 702 Hollow Shaft Accu-Coder™ also features EPC's innovative sensing technology to provide accurate and reliable resolutions to 30,000 CPR (120,000 counts in full quadrature) at frequencies to 1 MHz.

With its rugged construction and EPC's exclusive 3 year standard product warranty, you can be confident the Model 702 Hollow Shaft Accu-Coder™ can tackle your most demanding applications.

For additional information contact EPC, PO Box 1548, Sandpoint, ID 83864, 800-366-5412, www.encoderproducts.com.
