Press Release

THE HOTTEST SIZE 15 ENCODER ON THE MARKET IS NOW
THE COOLEST!!

FOR IMMEDIATE RELEASE

SANDPOINT, IDAHO, November 1, 2002:

Encoder Products Company (EPC), manufacturer of the popular Accu-Coder™ brand encoders, is pleased to announce that its **Model 755A Round Series Accu-Coder™ Encoder** is now available with extended low temperature capability. This new configuration allows the Model 755A to operate in environments as low as -40° C. It also means that the **Model 755A** can now be ordered with one of the widest operating temperature ranges of any Size 15 encoder in the industry – a full 110° C! The **Model 755A**, a full capability 1.5" encoder offering resolutions up to 30,000 cycles per revolution, also incorporates EPC's innovative sensing technology to provide unsurpassed accuracy and reliability. In addition, with EPC's flexible mounting systems, installation of the **Model 755A** is a snap.

The **Model 755A** is manufactured to EPC's exacting standards to ensure the quality you've come to expect from the Accu-Coder™ brand. And with EPC's exclusive three-year warranty, you can be confident your Accu-Coder™ will provide years of trouble free use.

For additional information contact EPC, PO Box 1548, Sandpoint, ID 83864, 800-366-5412, www.encoder.com.
